All calibration charges are inclusive of certification, cleaning, adjustments and minor repairs. Should major repairs be necessary, customer clearance will be sought prior to commencement.

All prices are exclusive of VAT.

We offer a local, free of charge collection & delivery service. Alternatively small items can be posted to us and we'll post them back at cost. Please feel free to give us a call to see if we're passing before posting an item.

If you require any further information or advice with regard to measuring instruments, please call us, we'll be delighted to talk to you.

48 Hr Quick Turnaround Service

Very urgent items can usually be processed within 48 hours, however a small surcharge may be applicable.

On Site Calibration

We are able to calibrate large or fixed measuring instruments on site if necessary, please call for a quote.

UKAS Accreditation

We are accredited by UKAS as competent to perform calibration on a range of dimensional instruments, please see our website; www.wortleystandards.co.uk for details of our current schedule of accreditation. Occasionally, we may need to sub-contract some of our UKAS workload to another UKAS Laboratory (approved by us). In such instances we would always seek customer approval first. We also offer fully traceable calibration to national standards on a wide range of other instruments and we will advise you of the certificate type prior to calibration.
